Outreach Report

The Outreach is now called Dunbar Gram Dermatology Outreach. Instead of veterinarians the outreach is for students. The first new outreach was held in November 2023 at PEI University. Dr. Sonja Zabel and Meghan Solc were our speakers and did an excellent job. We had 18 third and fourth year veterinary students participate. The students were very engaged and seemed happy with the program. At this time one of the students has already been accepted to a dermatology internship.

We also want to thank Stallergenes-Greer for their generous support. They are willing to support two Outreaches per year at \$20,000 per Outreach.

We already have our two Outreaches for 2024 set. In April we will be at the University of Florida and in the fall the outreach will be at Virginia Tech.

The budget for 2023 is attached below.

Thank you for your time

Sincerely

Dawn Logas

Expenses Dermatology Outreach
Airfare-Diana, Sonja, Meghan \$ 2,718.17
Transp, Food, Hotel \$ 3,450.38
Food/Bev -AVC \$ 1,564.62
