5. Length of residency in years: 3 years

6. Is a Masters degree or PhD required? No

7. When the residency was first offered? 2023

8. How many residents have been accepted into the program since inception?
  1. 0
9. What is the average annual dermatology caseload for the institution over the past 5 years? 2000 cases per year?
10. What is the average total caseload seen the entire residency? cases ( average cases annually times the number of years of residency)
  1. 5000 cases over 3 years
11. On average, how many new patients, rechecks and consults does the program see per year? (give these in actual numbers of cases)
  1. New cases 877
  2. Rechecks 1123
  3. Consults are seen with new cases
12. On average, what percentage of the program's cases are dogs and cats?
  1. Dogs: ~85-90%
  2. Cats ~ 10-15%
13. On average, how many exotic, equine and farm animal cases does the program see per year?
  1. Exotic: < 1%
  2. Equine: < 1%
  3. Farm animals: < 1%
14. What percentage of time is the mentor in clinics with the resident while the resident is seeing cases during the resident's first year. (*This means that the mentor is either physically seeing patients with the resident or can be contacted by phone and available to see the case within one hour of being called.*)
  1. 90%
  2. 80%
  3. 80%
15. Does the program have access to other specialists? Yes  
If so, please list: Ophthalmology, internal medicine, surgery, oncology, cardiology, Pathology, Emergency and critical care, Exotic and equine medicine
16. Please describe your library access: we have full access to an on-site library with extensive online journal subscriptions.

1. We have online access to both veterinary and human medical journals from both the ACVD and Eastern Virginia Medical School.
17. Does the program have statistical support for their residents' research projects? Yes.
18. Does the program have direct access to any basic science or clinical science laboratories that the resident can use for research proposals? No
19. How often do the residents and mentors have the following rounds? *(For each type of rounds, please list how often they are held, how long each session is, and a detailed description of how they are conducted.)*
  1. Case rounds: They will have weekly case rounds for an hour. The resident will be required to keep detailed case log. In addition, case discussions are continuous during the workday.
  2. Journal club: Journal club will be once weekly for 1-2 hours depending on the nature of the material and resident's needs. The resident will be required to write a summary on the required articles and possible board questions. This will allow for easier studying for board examination and to allow the resident to start thinking about the exam and the type of questions. Comparative dermatology rounds will take place once monthly for 1 hour with Eastern Virginia Medical School 4 MD dermatology residents. This is more of a roundtable discussion where each resident presents an article and discuss with other residents and dermatologist
  3. Histopathology training: Histopathology will be performed twice monthly via zoom by Karen Trainor, DVM, DACVP and Innovative Vet Path Laboratory. Residents will start to receive unknown histopathology samples, mystery samples, and dermatopathology from clinical cases. The supervising mentor will be present for histopathology training.
  4. Basic science learning rounds: Basic science and immunology will be performed twice monthly for 2 hours. A detailed list of required reading and information will be provided to the resident and they will have to create a PowerPoint presentation.
20. Resident's benefits: (Please give a general list of benefits and then whom a potential candidate should contact to get more specific information on salary and benefit packages)
  1. Vacation: two(2) weeks (10 working days)
  2. License fees: All state licensing fees and professional membership dues, including AVMA and state veterinary medical associations will be paid.

3. Profession fees: To include but not limited to expenses from the NAVDF, World Congress or approved CE and scrub allowance. This is in addition to the vacation time.
  4. Health Insurance: Medical insurance through Optima Health
  5. Sick days: five (5) sick days with pay per year.
21. Does the program allow the resident to attend the NAVDF (North American Veterinary Dermatology Forum) meeting annually? Yes
22. Does the program pay for the resident to attend the NAVDF meeting annually? Yes
23. Average number of days a resident will spend on clinics per month: First year -16, Second and Third year -16
24. Average number of days a resident will spend on non-clinical pursuits per month (not including Sundays or holidays): First year- 4 (Monday), Second and Third year - 4
25. Does the resident have to take general medicine emergency duty? No  
If so how often:
26. Does the resident take Dermatology emergency duty? Yes but this will be built into the daily schedule and dermatology appointments will be based off the mentors discretion.
27. Is time allotted for externships in other subspecialties or at other dermatology practices? Yes If so explain: 8 weeks of time is allocated for externships. Options for externships include University veterinary dermatology programs, exotic animal specialty clinic, equine specialty clinic.
28. How much time is allotted off clinics for board preparation? 8 weeks
29. How much time is allotted to carry out a research project (grant writing, data collection, paper preparation) during the residency (please report in number of weeks)? 8 weeks
30. What are the other responsibilities/duties of the resident?
1. Receive patient follow-up examinations whenever possible. If not possible, the resident is responsible for telephone follow-up with the client, referring veterinarian, or receiving clinician.
  2. Maintain a detailed case log including case number
  3. Maintain medical records in accordance with the standards of Coastal Virginia Veterinary Dermatology.
  4. Provide telephone consultations to local veterinarians regarding potential referrals.
  5. Prepare and present a minimum of four continuing education lectures of at least 30 minutes in length and related to veterinary dermatology during the program.

The lectures will be presented at local and/or state continuing education events and will be presented to veterinarians, veterinary technicians, or medical doctors.

31. How many residents has the program had over the past 10 years? 0  
How many/what percentage of the above residents (question 32) passed credentials on the NA
32. How many/what percentage of the above residents (question 31) sat boards for the first time? NA
33. How many / what percentage of the above residents (question 32) passed the board exam on their? NA
34. Is your residency program reviewed by an outside committee at your practice? No
35. Please list the papers published by your last 5 residents. NA
36. Names of your last 5 residents and whether they are willing to be contacted by potential residents: NA
