Detailed Program Description for ACVD Website

1) Program name and location:

Animal Dermatology Clinic - Portland 11376 SE 82nd Ave, Suite 602 Portland, OR 97086 (503) 777-8999

Animal Dermatology Clinic Vancouver Satellite Columbia River Veterinary Specialists 6607 NE 84th St, Suite 109 Vancouver, WA 98665 (503) 777-8999

- 2) Is the program currently on ACVD Probation? NO If yes, please describe the reasons for probation, what is being done to correct them and when the program is scheduled to be off probation?
- 3) Mentor(s): 3
 - a) Name: Catherine Milley, DVM, DACVD (Primary Program Mentor)

i) Years in ACVD: 8ii) Years as Mentor: 3

b) Name: Ashley Bourgeois, DVM, DACVD

i) Years in ACVD: 10ii) Years as Mentor: 3

c) Name: Marvin Daniel Schuldenfrei, VMD, DACVD

i) Years in ACVD: 2ii) Years as a Mentor: 0

4) Specific requirements for applying to the program:

The purpose of this residency program will be to provide the resident with in-depth training in the basic and applied sciences of veterinary dermatology such that they develop a comprehensive knowledge of the dermatologic conditions of domestic animals.

The candidate meets the general qualifications for ACVD residency training:

- 1. Be a graduate of an approved veterinary college.
- 2. Have completed a one-year internship or satisfactory practice equivalency.
- 3. Be approved to practice veterinary medicine in the states of Oregon and Washington.
- 4. Be a member of a national veterinary medical association (i.e. AVMA).

5. Be of satisfactory moral and ethical character including but not restricted to being honest and truthful, not be habitually intoxicated or addicted to drugs, and not to have been convicted of cruelty to animals.

Objectives:

- A. To fulfill the requirements of a provisional residency program as set forth by the American College of Veterinary Dermatology.
- B. To provide in-depth clinical training in veterinary dermatology
- C. To provide in-depth basic and applied science training in veterinary dermatology
- D. To conduct original research in the field of veterinary dermatology
- E. To meet the requirements of the ACVD Credentials and Education Committee
- F. To obtain ACVD board certification
- 5) Length of residency in years: 3
- 6) Is a Master's degree or PhD required? **NO** If so, which_____
- 7) When the residency was first offered? **2021** Has it been continuous since then? **YES** If not continual what years was the residency offered?
- 8) How many residents have been accepted into the program since inception? 1 How many of these have become board certified dermatologists? **N/A**
- 9) What is the average annual dermatology caseload for the institution over the past 5 years? _5,580/yr at the Portland location; 951/yr at the Vancouver location_ cases per year.
- 10) What is the average total caseload seen the entire residency? <u>19,600 total</u> cases (average cases annually times the number of years of residency)
- 11) On average, how many new patients, rechecks and consults does the program see per year? (give these in actual numbers of cases)
 - a) New cases 880 in Portland; 100 in Vancouver
 - b) Rechecks 4,700 in Portland; 852 in Vancouver
 - c) Consults 4 phone consults per day
- 12)On average, what percentage of the program's cases are dogs and cats?

 Dogs **85**% cats **15**%
- 13)On average, how many exotic, equine and farm animal cases does the program see per year? Exotics **0** Equine **1%** Farm animals **0**
- 14) What percentage of time is the mentor in clinics with the resident while the resident is seeing cases during the resident's first year: 100%, second: > 75% and third: > 75% (This means that the mentor is either physically seeing patients with the resident or can be contacted by phone and available to see the case within one hour of being called.)

- 15) Does the program have access to other specialists?

 If so, please list: ADC Portland is a stand-alone dermatology facility. Other specialties including emergency, surgery, cardiology, internal medicine, ophthalmology, and clinical pathology are available via virtual access through other ADC practices. There are emergency, surgical, internal medicine, and ophthalmology specialists at the satellite Vancouver clinic visited by ADC-Portland doctors 1-2 times weekly. We have a great relationship with multiple other specialists in the area and have access to neurology, cardiology, oncology, etc.
- 16) Please describe your library access: In house library and ACVD online library as well as Western University College of Veterinary Medicine library. Residents also have access to the ADG on-line library of extensive lectures and presentations.
- 17) Does the program have statistical support for their residents' research projects? **Not in house, however, we have access to statistical support through an independent contractor**
- 18) Does the program have direct access to any basic science or clinical science laboratories that the resident can use for research proposes? **No**
 - If yes, please describe the types of laboratories available and interactions that the resident may have with them.
- 19) How often do the residents and mentors have the following rounds? (For each type of rounds, please list how often they are held, how long each session is, and a detailed description of how they are conducted.)
 - a. Case rounds: Resident has a one-on-one review of selected cases on a weekly basis. Each case referral letter is reviewed by a mentor in year one of the residency. Case rounds are also presented once monthly at Resident Review for four hours with selected mentors.
 - a. Journal Club: 4 hours per month of journal club review. This involves 1 ½ hours monthly of Journal Club at the Resident Training Day, 1 ½ hours per month at a phone journal club and 1 hour of self-directed reading and review of journal articles prepared by mentors.
 - Book Club: 4 hours per month of book club in which the resident will be responsible for review of assigned chapters in various dermatology texts.
 The book club is led by mentors at ADG
 - c. Histopathology training: Resident will have 1 hour twice monthly of required didactic training and review of histopathology slides and review of basic histopathology anatomy conducted by board certified veterinary

- pathologist. In addition, there is 1 hour of slide review per session directed by the pathologist with assigned questions and assessment.
- d. Basic science learning rounds: During the entire residency there are scientific presentations by residents and Diplomates as well as other reviews involving basic sciences 6 hours per month at the offsite Resident Training Day.
- 20) Resident's benefits: (Please give a general list of benefits and then whom a potential candidate should contact to get more specific information on salary and benefit packages): Two weeks of vacation and one week of personal leave per year; professional dues for AVMA, AAVD, VMA (local association), State licensure; contribution to health insurance; and an option to participate in 401K plan (see hospital supervisor for details)
- 21)Does the program allow the resident to attend the NAVDF (North American Veterinary Dermatology Forum) meeting annually? **YES**
- 22) Does the program pay for the resident to attend the NAVDF meeting annually? YES
- 23) Average number of days a resident will spend on clinics per month: 18 days per month in years one and two, 16 days per month in year three.
- 24) Average number of days a resident will spend on non-clinical pursuits per month (not including Sundays or holidays): 6.75 days per month in the first two years, then 9 days per month in the third year of the program.
- 25) Does the resident have to take general medicine emergency duty? **NO** If so, how often:
- 26) Does the resident take Dermatology emergency duty? **NO** If so how often:
- 27) Is time allotted for externships in other subspecialties or at other dermatology practices? YES If so explain: Resident is encouraged to utilize up to 2 weeks for an externship in the third year of the residency.
- 28)How much time is allotted off clinics for board preparation? The residency ends July 15th and the exam has been moved to November, which allows the resident 3.5 to 4 months to study after the completion of their program. Study time is allotted in this time with reduced clinic time starting 3 months prior to the exam and then one month off clinics completely in the last 4 weeks.
- 29) How much time is allotted to carry out a research project (grant writing, data collection, paper preparation) during the residency (please report in number of weeks)? 12 weeks, although this is not in block timing. This would be accomplished within 1 day every

- other week for the first two years and then 1 day per week in Year 3. Blocks of time can be scheduled if required to complete research project duties if requested.
- 30) What are the other responsibilities/duties of the resident? Residents must present assigned topics to the mentors and other residents every one to three months during their residency. These presentations must be complete with PowerPoint presentation and notes. Residents are provided with a critique following each presentation.
- 31) How many residents has the program had over the past 10 years? 1
- 32) How many/what percentage of the above residents (question 31) passed credentials on the
 - a) First submission 1
 - b) Second submission N/A
 - c) Third submission or more N/A
 - d) Never passed credentials N/A
- 33) How many/what percentage of the above residents (question 31) sat boards for the first time
 - a) The year they finished their residency N/A (first resident will be sitting this year)
 - b) One year after finishing their residency N/A
 - c) Two or more years after finishing N/A
 - d) They never took boards N/A
- 34) How many / what percentage of the above residents (question 31) passed the board exam on their
 - a) First time taking the exam N/A
 - b) Second time taking the exam N/A
 - c) Third time or more taking the exam N/A
 - d) Never passed N/A
- 35. Is your residency program reviewed by an outside committee at your practice? **YES** If yes how often? **Annually**
- 35)Please list the papers published by your last 5 residents. M. Tully, C. Milley, A. Bourgeois, W. Bidot: Comparison of cytological findings between direct impression smears and adhesive slides in canine superficial bacterial folliculitis. *Vet Dermatol.* 35(5), 2024
- 36)Names of your last 5 residents and whether they are willing to be contacted by potential residents: **MaryKate Tully, willing to be contacted**
