6. To obtain ACVD board certification

5. Length of residency in years: 3
6. Is a Master's degree or PhD required?
No
If so, which: **N/A**

7. When was the residency first offered? [New Program \(Applying for 2023\)](#)
Has it been continuous since then? [N/A](#)
8. How many residents have been accepted into the program since inception? [New program](#)
How many of these have become board certified dermatologists? [N/A](#)
9. What is the average annual dermatology caseload for the institution over the past 5 years? cases per year
[2,000](#)
10. What is the average total caseload seen the entire residency? (average cases annually times the number of years of residency)
[6,000](#)
11. On average, how many new patients, rechecks and consults does the program see per year? (give these in actual numbers of cases)
[ADC-Seattle](#)
a. [New cases: 1,100](#)
b. [Rechecks: 900](#)
c. [Consults: 0](#)
12. On average, what percentage of the program's cases are dogs and cats?
[ADC-Seattle:](#) [dogs: 80 %](#) [cats: 20 %](#) [equine: 0%](#)
13. On average, how many exotic, equine and farm animal cases does the program see per year?
[ADC-Seattle:](#) [Exotic: 0](#) [Equine: 0](#) [Farm animals: 0](#)
14. What percentage of time is the mentor in clinics with the resident while the resident is seeing cases during the resident's first year:_, second:_ and third:_
(This means that the mentor is either physically seeing patients with the resident or can be contacted by phone and available to see the case within one hour of being called.)
[ADC-Seattle: first year: 90%, second: 75% and third: 75%](#)
15. Does the program have access to other specialists? If so, please list:
[The Animal Dermatology Clinic-Seattle is a stand-alone facility located in the center of Seattle, within 1 mile of the closest specialty hospital that houses board certified internal medicine, neurology, dentistry and emergency medicine. Within a 15-mile radius there are 10 additional specialty hospitals/practices with access to board certified radiologists, oncologists, ophthalmologists, surgeons, cardiologists, dermatologists, internists, neurologists and criticalists.](#)

16. Please describe your library access: In addition to an in-house library of text books and journals, the resident has access to the ACVD and WAVD online library and Western University College of Veterinary Medicine online library. Lastly, the resident also has access to the ADC online library which is a library that consists of all journal articles in a database that have been reviewed at current and past journal clubs as well as critiques from the various ADC mentors and currently over 3500 journal articles. Online access to ADC library of previous structure/function presentations from previous residents is also provided.
17. Does the program have statistical support for their residents' research projects? Not in house.
18. Does the program have direct access to any basic science or clinical science laboratories that the resident can use for research proposes? No
If yes, please describe the types of laboratories available and interactions that the resident may have with them: N/A
19. How often do the residents and mentors have the following rounds?
(For each type of rounds, please list how often they are held, how long each session is, and a detailed description of how they are conducted.)
- Case rounds: Resident has a one-on-one review of selected cases on a weekly basis. Each case referral letter is reviewed by a mentor in year one of the residency. Case rounds are also presented once monthly at Resident Review for four hours with selected mentors for residents.
 - Journal Club: 4 hours per month of journal club review. This involves 1 ½ hours monthly of Journal Club at the Resident Training Day, 1 ½ hours per month at a phone journal club and 1 hour of self-directed reading and review of journal articles prepared by mentors.
 - Book Club: 4 hours per month of book club in which the resident will be responsible for review of assigned chapters in various dermatology texts. The book club is led by mentors at ADG
 - Histopathology training: Resident will have 1 hour twice monthly of required didactic training and review of histopathology slides and review of basic histopathology anatomy conducted by board certified veterinary pathologist. In addition, there is 1 hour of slide review per session directed by the pathologist with assigned questions and assessment.
 - Basic science learning rounds: During the entire residency there are scientific presentations by residents and Diplomates as well as other reviews involving basic sciences 6 hours per month at the offsite Resident Training Day.

20. Resident's benefits: (Please give a general list of benefits and then whom a potential candidate should contact to get more specific information on salary and benefit packages): [Two weeks of vacation and one week of personal leave per year; professional dues for AVMA, AAVD, VMA \(local association\), State licensure; contribution to health insurance; and an option to participate in 401K plan \(see hospital supervisor for details\)](#)
21. Does the program allow the resident to attend the NAVDF (North American Veterinary Dermatology Forum) meeting annually? [Yes](#)
22. Does the program pay for the resident to attend the NAVDF meeting annually? [Yes](#)
23. Average number of days a resident will spend on clinics per month: [18 in years one and two; 16 in year three.](#)
24. Average number of days a resident will spend on non-clinical pursuits per month (not including Sundays or holidays): [6.75 days per month in the first two years, then 9 days per month in the third year of the program.](#)
25. Does the resident have to take general medicine emergency duty? [No](#)
If so how often: [N/A](#)
26. Does the resident take Dermatology emergency duty? [No](#)
If so how often: [N/A](#)
27. Is time allotted for externships in other subspecialties or at other dermatology practices? [Yes](#)
If so explain: [Residents are encouraged to participate in a 2-week externship in the third year of their program](#)
28. How much time is allotted off clinics for board preparation? [The residency ends July 15th and the exam has been moved to November, which allows the resident 3.5 to 4 months to study after the completion of their program. Study time is allotted in this time with reduced clinic time starting 3 months prior to the exam and then one month off clinics completely in the last 6 weeks.](#)
29. How much time is allotted to carry out a research project (grant writing, data collection, paper preparation) during the residency (please report in number of weeks)? [12 weeks](#)

30. What are the other responsibilities/duties of the resident? Residents must present assigned topics to the mentors and other residents every one to three months during their residency. These presentations must be complete with PowerPoint presentation and notes. Residents are provided with a critique following each presentation.
31. How many residents has the program had over the past 10 years? New program
32. How many/what percentage of the above residents (question 31) passed credentials on the:
- First submission: N/A
 - Second submission: N/A
 - Third submission or more: N/A
 - Never passed credentials: N/A
33. How many/what percentage of the above residents (question 31) sat boards for the first time:
- The year they finished their residency: N/A
 - One year after finishing their residency: N/A
 - Two or more years after finishing: N/A
 - They never took boards: N/A
34. How many / what percentage of the above residents (question 31) passed the board exam on their:
- First time taking the exam: N/A
 - Second time taking the exam: N/A
 - Third time or more taking the exam: N/A
 - Never passed: N/A
35. Is your residency program reviewed by an outside committee at your practice? Yes If yes how often? Yearly
36. Please list the papers published by your last 5 residents: New program
37. Names of your last 5 residents and whether they are willing to be contacted by potential residents: New program
